

Space Jammer

Target Demographic:

Space Shooter Enjoys.

ESRB:

Game Outline:

Start your space exploration journey pilot! Break asteroids, shoot down enemies, and collect their loot, as you sweep across the vast expanse of space. Or that's what you had in mind, but the commission says you've gotta do training first.

In this edition of Space Jammer, you're simply taking a test, a space test!

Controls:

A and D turn your ship, W to move forward, and S for both emergency break, and reverse thrust.

Holding LSHIFT will increase your acceleration forward but not max speed.

Spacebar to fire!

Target Platforms:

PC, Windows, Mac, Linux.

Projected Ship Dates:

Prototype Build – November 2022

Vertical Slice – January 2023

Final Release – March 2023
