

Treasure Planet

Target Demographic:

Space Shooter Enjoymers.

ESRB:

Game Outline:

Start your space exploration journey pilot! Break asteroids, shoot down enemies, and collect their loot, and this just in, shoot aliens! I would highly suggest buying a launcher first so you can at least shoot things.

In this edition of Space Jammer, you can freely fly around in the vast mostly emptiness of space. You can purchase modules from the shop as well.

Controls:

A and D turn your ship, W to move forward, and S for both emergency break, and reverse thrust.

Holding LSHIFT will increase your speed greatly, which may be useful when fighting things.

Spacebar to fire!

All other keys on screen.

Target Platforms:

PC, Windows, Mac, Linux.

Projected Ship Dates:

Prototype Build – November 2022

Vertical Slice – March 2023

Final Release – May 2023
